Refer to Report Dated: 12/02/2003

Report Type: SITE REASSESSMENT 001

SDMS Document ID

1028170

Report Developed by: START

DECISION:

- ☐ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:
- ☐ 1a. Site does not qualify for further remedial site assessment under CERCLA (No Further Remedial Action Planned - NFRAP)
- ☐ 1b. Site may qualify for action, but is deferred to:
- ☒ 2. Further Assessment Needed Under CERCLA:
- 2a. Priority: ☒ Higher ☐ Lower
- 2b. Other: (recommended action) High

DISCUSSION/RATIONALE:

A Site Reassessment was put together summarizing all existing investigations and data for this site. The report also gives suggested data gaps within the Superfund program and Hazard Ranking System model. Due to the potential of lead in residential soils and other continued releases of hazardous substances to the Dolores River and Silver Creek, this site will have the disposition of further action needed under Superfund.
